

Integer.IO – AI / ML Project Ideas

- 1 Spam Email Detection using Machine Learning
- 2 Sentiment Analysis of Product Reviews
- 3 Face Recognition System using OpenCV
- 4 Fake News Detection using Machine Learning
- 5 Handwritten Digit Recognition
- 6 Speech-to-Text Recognition System
- 7 Emotion Detection from Text
- 8 Plagiarism Detection System
- 9 Language Translation System
- 10 Movie Recommendation System
- 11 Resume Screening using Machine Learning
- 12 Credit Card Fraud Detection
- 13 Stock Price Prediction System
- 14 Disease Prediction System
- 15 Smart Attendance System using Face Recognition
- 16 Traffic Sign Recognition System
- 17 Customer Churn Prediction System
- 18 Crop Yield Prediction System
- 19 Online Exam Proctoring System
- 20 Hand Gesture Recognition System
- 21 Credit Risk Analysis System
- 22 News Recommendation System
- 23 Sentiment-Based Stock Market Analysis
- 24 Healthcare Diagnosis Prediction System
- 25 Autonomous Driving Simulation System
- 26 Smart Traffic Management System
- 27 Banking Fraud Detection System
- 28 Personalized Learning Recommendation System
- 29 Job Resume Matching System
- 30 Smart City Surveillance System
- 31 Face Mask Detection System
- 32 OTT Content Recommendation System
- 33 Supply Chain Demand Forecasting System
- 34 Predictive Maintenance System
- 35 Social Media Trend Analysis System

- 36 Virtual Interview Evaluation System**
- 37 Object Detection System**
- 38 License Plate Recognition System**
- 39 Text Summarization System**
- 40 Question Answering System**
- 41 Document Classification System**
- 42 Facial Emotion Recognition System**
- 43 Image Caption Generation System**
- 44 Speech Emotion Recognition System**
- 45 Smart Shopping Recommendation System**
- 46 Forest Fire Detection using Computer Vision**
- 47 Pothole Detection System**
- 48 Crowd Density Estimation System**
- 49 Weapon Detection System**
